

Cut out this
rectangle

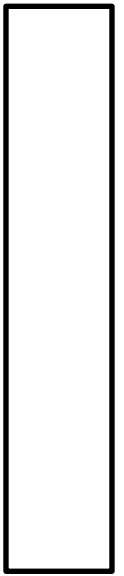

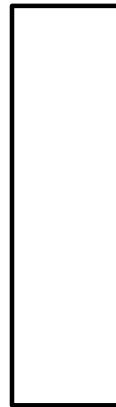

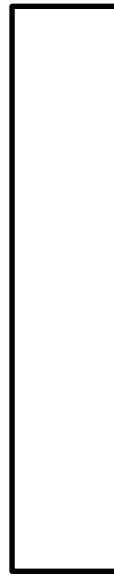

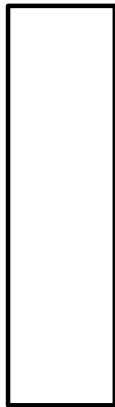

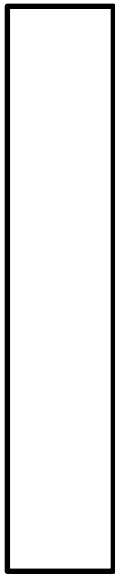

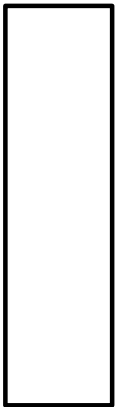

Cut out this rectangle

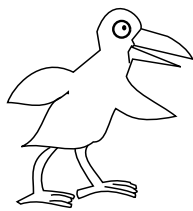

"Who are these,
Peeping from
burrows
and hiding in
trees?"

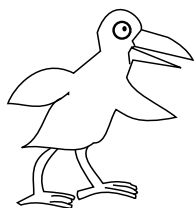

Cut out the rectangle above to form the main part of your pull tab (imagine a straight line from each end to the other side and cut to join up the corners; I haven't printed the full perimeter of the rectangle so that the lines don't show in the pull tab window)

Use these strips to anchor the pull tab behind the image, as per the video instructions. I've included multiple pull tabs and anchors to reduce copying if you want to prepare more pull tab scenes

"Who are these,
Peeping from
burrows
and hiding in
trees?"

"Who are these,
Peeping from
burrows
and hiding in
trees?"
